

2015 Crestone Energy Fair & Collective Biodiesel Conference

Vendor & Sponsorship Form

Crestone, Colorado is a community constantly striving for greater levels of local sustainability. In our ongoing effort to support this paradigm, we are pleased to announce the **26th Annual Crestone Energy Fair on August 28 - 30, 2015.**

This year, the energy fair will be host to the **Collective Biodiesel Conference** which will attract participants from around the state and nation to engage in exploration of new technologies and manufacturing techniques. We anticipate **over 200 participants** in the weekend-long series of workshops, vendor expo, facility tours and more on topics including transportation, fuel, food, housing, energy production and economics.

The event is a great opportunity to promote your business, engage new clients, sell your goods and services, and support development of renewable energy industries in Saguache County.
